Diamond Spectacles.

THESE SPECTACLES are manufactured from "MINUTE CRYSTAL PEBBLES" melted together, and are called Diamond on account of their hardness and brilliancy. It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.
Manufactured by the Spencer Optical Manufacturing Comp'y, New York. For sale by responsible agents in every city in the Union. H. A. HEATH & CO., Jewelers and Opticians, are sole Agents for Newport, R. I., from whom they can only be obtained. No peddlers employed. Do not buy any unless you see the trade mark. ap

A Friend with a Single Fault.

A friend with a single fault! Have you never formed one of a little company all engaged in talking about just that one little fault of a friend? To the rest of us it is so apparent. If it were not for the solitary flaw, we say, the dear boy, the dear girl, would be perfect. Sometimes it is fretfulness; sometimes conceit; sometimes a morbid self-abasement, sometimes a touch of selfishness, a disposition to dwell upon the failings of others; a faculty for interference; a lack of attention to personal appearance; procrastination, the dear knows what. Now is it not very much like a nightmare, the way we live in the same house with these people, year in and year out, and see the petty fault growing bigger, and can raise no voice against it, can do nothing but say "if, if, if," "alas and alas!"

"O but we do speak!"

Yes, sometimes we do; and sometimes the warning voice is enough. But the tragedy appears in those cases where either the warning can not be given, or where it is unheeded. A family might be described as a succession of conventicles, composed always of the same members, save that at each session a different member is absent, and is by the others apprehended and discussed in a way in which he can neither apprehend nor discuss himself.

It has come to be considered a point of honor to be played upon as may happen that we can see other people's faults so much better than our own. Now while this is also very true that we do generally know our own faults, have had at least side-glimpses of them, and that they grow upon us because we dread to apply the knife because, to be honest, we are every one of us shirks, more or less.

In these slight etchings of character you know I do not care to seize upon those patent vices or—let me call them—follies and virtues which flaunt along the street, and with which every one is familiar enough; but rather to look up from my desk at the ordinary man or woman who goes past the window on the lawn, or comes in to dust the room, or spend an evening with me, with his or her ordinary failing and attainments. In other words, my gentle reader, nothing would please me more than to give you the sensation of coming unexpectedly upon a mirror; I should like you to be startled at seeing your own face look up at you from the page.

So my friend Philip hardly answers my purpose as an example. He who began by being very fine in his moral purposes, and very clean in his person, who gradually neglected his appearance till he became more than untidy, and ended in complete personal demoralization and moral dirt. I saw how it all began; he shirked his duty with regard to soap and water. He knew he shirked his duty; knowing it, he did not cease to do so, and ungodliness followed uncleanliness in natural sequence.

One of the signs of advancing age is our acceptance of certain foibles, of which our friends have told us, and which up to this year of grace we had been in the habit of looking upon as mere accidental and transient peculiarities. It is a sad day for us when we make that acceptance. There is some hope for us when the joke about our prospect of being fifteen minutes late at the door of Heaven has a certain sharp freshness; but when we settle down into the conviction that we are likely to be behindhand all our lives—well perhaps the first gray hair has not been discovered, perhaps the grasshopper is not yet a burden, but we are "ageing."

The older and wiser I grow the more am I impressed with the idea of every man's personal responsibility. Make what allowance you will for taint in blood, sordid circumstance and all that, I believe more and more that every soul has a chance. I doubt if there is any well deep and dark and smooth-walled enough to keep a poor devil down if he is determined to get to the top of it. He will win out if he wants to hard enough. It is wonderful how good-luck follows the hospitable mind and honest endeavor.

I wish my friend the parson would hurry up that essay of his on "How not to go Mad."—*"The Old Cabinet," Scribner's for October.*

Wool Prospects.—The outlook as regards wool is certainly at present in favor of a firmer market. A large purchase has been made in New York within the past two or three weeks by a buyer from Belgium, at fully the current quotations in Europe, either with the hope of depressing the Antwerp market or because the quality of the wool on this side is superior to that attainable there. American buyers have again gone to Australia, a movement which will not be unlikely to strengthen prices in that market. Some holders in eastern cities are now asking 55 cents for XX Ohio, an advance which is of doubtful continuance, in the opinion of our contemporary; but with present appearances of foreign advices, we confess we can not see why it should not be sustained.

From the North. Bark Glacier, which arrived at New Bedford last week brought the remainder of the wrecked seamen of the barks Ansel Gibbs and Orray Taft, two of whom are still suffering severely from scurvy. The crew of the bark and the wrecked seamen, among whom are some fine looking men, attracted a great deal of attention, yesterday, being dressed in suits of skins, some of which were very handsome and tastefully made. The Glacier has been absent since July 19, 1871, and secured in that time but 70 barrels of oil. The fall of 1872 was a most severe one, a strong easterly gale blowing for twenty-nine days, filling Repulse Bay with heavy ice, and although whales were seen in good numbers, it was impossible, on account of the ice, to secure them; and when the wind changed to the northward it was so light that it would not start the ice and the weather was so excessively cold that it was difficult to keep comfortable, the thermometer in February last standing at 56 degrees below zero. Fresh fish were caught for the sick men by cutting through the ice on the lakes, which was nine feet thick. [*New Bedford Mercury.*

The Swede Turnip. Mr. John Dey, in a discussion on Root Culture by a Wisconsin Farmer's Club, said: "The Swede turnip is a good root for sheep, hogs and young cattle. Cows fed on them will keep in good heart, but they are not as good for milk as the carrot or beet. It will pay to raise them if we do not wish to feed them we can sell them; they usually bring 40 or 50 cents per bushel, and if we say 600 bushels to the acre at 40 cents, we have $240; and if we allow one-half for raising and marketing, we have $120, which would buy 200 bushels of corn, and to raise 200 bushels of corn we would want four acres of ground and expend more to raise and harvest than we would the turnips."

Mosquito Gauzes. The rest of the laboring man is not always sweet, notwithstanding the proverb. One of the great pests of the farm-house in summer is the mosquito, especially in the vicinity of water. For those who have the means to buy fine woven wire in elegant mahogany frames just fitting the windows, there is an easy defense against these pests. But mosquito netting, which is very cheap, will answer all the purpose of the more costly article, and one who can use a jack-knife and a hammer can make a frame to fit the raised window. If one has a plane, they can be made of fine strips, an inch square, and nicely painted. These will last a great many years. But in the absence of suitable tools common lath will answer a very good purpose. Cut off two strips to fit the width of the window. Cut two more about eighteen inches in length for the uprights. Nail these four laths at the corners, making a frame to fit nicely in the window, and cover the frame with the netting. You have a complete mosquito-guard, and can sleep with open windows the rest of the summer.

A curious case of lockjaw has just occurred at Cornwall on the Hudson. The victim was a little daughter of Mr. William Orr, who received a cut on the ankle from the sharp edge of an earthen bowl, the bottom of which fell out while the child was standing in it as her mother was washing her.

CONSUMPTION CAN BE CURED
SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,
Are the only medicines that will cure Pulmonary Consumption.
Sometimes medicines that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood; hemorrhage follows, and in fact, clogging the action of the very organs that caused the cough.
Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many are now complaining with a dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and other times drowsy; the food that is taken lies heavily on the stomach, accompanied by acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and the cough in these cases be suddenly stopped, the lungs, liver and stomach clog and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result.
Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.
Schenck's Seaweed Tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system and creates a healthy circulation of the blood. When the bowels are costive, skin sallow, and the patient is of a bilious habit, Schenck's Mandrake Pills are required.
These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Pa., and for sale by GEO. C. GOODWIN & CO., 38 Hanover street, Boston, and John F. Henry, 8 College Place, New York, Wholesale Agents.
For Sale by Druggists generally.

Newport Daily News.

TUESDAY, SEPTEMBER 30, 1873.

Families or individuals leaving Newport for their winter homes can have the NEWPORT JOURNAL mailed to their address until they come again next season. The paper is published every Thursday, from the NEWS office and contains all the local and general news of the week. Price $2.00 per year, or proportionately for less time.

THE MONEY STRINGENCY.

The state of the finances depends upon the demand and supply of currency. The demand depends upon the requirement of business either of speculative business or the wants of the regular trade. Speculators sometimes hoard money for the purpose of creating a scarcity and thereby to affect the prices of commodities. The invariable habit of timid people to cling to their money whenever there are signs of stringency in the money market facilitates the purposes of speculators in creating panics, and they can always count with safety upon this auxiliary to assist the result they wish to produce.

The supply of money therefore does not always depend upon the demand. Since the war productive industry has been wonderfully stimulated. Never in the history of the country have the products of the country equalled those of the present time. Never before have we built so many railroads, factories, and dwellings, or made so many farm and other improvements as within the last decade, and it is not at all wonderful that our enterprise has carried us beyond the legitimate scope of its operation with the means at command. Business however, is carried on upon credit. If we buy for cash, we pay with a check, and the result is that the money for which the bank is responsible to us is transferred to the credit of him from whom we purchase, and if the seller wishes to withdraw the funds we transfer to him from the bank, in most cases he receives a check on a correspondent bank in New York, Boston or elsewhere, so that no money passes from hand to hand in most business transactions, and a man can do almost any amount of business so long as his bills receivable are adequate to meet his bills payable. Fluctuations in the prices of commodities, may add to his bills receivable or diminish them and thus increase or diminish the fortune of the business man so that he may have a surplus, or may fail to meet his bills payable from his bills receivable as his commodities rise or fall in the market; and if the business man has an insufficient capital to meet this diminution of price he must go into liquidation. Thus so far as his business is concerned the channels of trade become interrupted, those who hold his bills payable not receiving them, may fail to meet their payment, and thus it is that the failure of one may may affect many. The Chesapeake & Ohio Railroad could not pay their obligations to Fisk & Hatch; in consequence of this the thousand men whose funds were held by Fisk & Hatch might not, and if dependance upon funds in the hands of that firm was made for that purpose, could not meet their liabilities to their creditors.

The railroad expected to negotiate its bonds abroad, but there railroad securities have been discredited, and they cannot be negotiated, and the result is upon us. Now what is to be done? Arrest all enterprise and stop and settle up? No! It would be as well to stop our water supply at its source, because we had a surplus. We must try to confine business to its legitimate channels: treat those men who form rings to increase or decrease the price of commodities, or to produce a plethora, or scarcity of money, as gamblers, as they are: and entitled to no more consideration than are men who deal faro, or live upon the results of horse racing; bestow a generous confidence upon all who are entitled to it, and lend a helping hand to every working man upon whom you can confer a favor and above all avoid the blues and keep a cheerful countenance for these are contagious in times of panic.

New Books.

AT OUR REST. by Summer Ellis. Boston. Lee and Shepard: Newport, C E Hammett Jr.

This is a very neat volume of 307 pages containing nine essays, the first of which gives the book its title. The other essays are Our Elect, Daily Sunshine, A Low Tone, Contentment, Courage, The Home, Ourselves and Others, and On the Square. The author's style will suit persons who enjoy quiet reading and whose attention needs no braying trumpets nor dazzling lights to hold it. The essays are neither brilliant nor profound, but in an unostentatious way they tell us what we perhaps knew before, but did not know nearly so well. It is pleasant to find thoughts, not so wonderful but that we sometimes have them, expressed in the pure and simple language which Mr. Ellis uses so effectually. There is something about these essays that reminds the reader of Cowley:—a restfulness that brings a feeling of relief after the sensational literature that is too often in our hands: a commonness of subject with a freshness of treatment: a delightful quietness and absence of all effort to produce striking effects.

WOMANHOOD: its Sanctities and Fidelities, by Isabella Beecher Hooker. Boston. Lee and Shepard. Newport, C. E. Hammett. Jr.

This is a pamphlet of somewhat over a hundred pages, and contains much that all ought to know, men as well as women. Besides this, it teaches what ought to be taught to children, but which most parents withhold from a foolish belief that ignorance is the best means of preserving innocence: a gross mistake that has been fatal to themselves.

GOLDEN SUNBEAMS, for Sunday School and Home Circle, by D. F. Hodges, and J. H. Fenney. Boston. Lee and Shepard. Newport, C. E. Hammett. Jr.

The uninitiated are puzzled to know what becomes of all the Sunday school singing books, but the preface of this book states that "It is a well established fact that a new music book once in two years, at least, is indispensable to maintain the interest and insure the success of the Sunday school." The volume before us seems well adapted to interest the scholars, and take the place of any book whose two years have expired.

The amount of money which will be brought into the market by the action of the Treasury in paying the interest on coupon and registered bonds is estimated at ten millions on the coupons, but as most of the bonds are held in Europe the relief from them will not be felt for some time. The amount which will result from the payment of interest on registered bonds will be about four millions of dollars. The registered bonds are nearly all held in this country.

The United States Hotel at Saratoga is six stories high. It contains five millions of brick, and a perfect forest of timber. The German Republican Central Committee adopted resolutions last evening approving the action of the Republican State Convention at Utica and the nominations for the state ticket, reassuring the Board of Aldermen for not taking action on the nominations of the mayor for police justices, and disapproving the project to erect a new city prison, on the ground that it would involve unnecessary expense.

Governor Powers of Mississippi concurs in the opinion of the Attorney General that there should be no state election in that state this fall. It is thought, however, that the registrars already appointed will hold an election pursuant to the act of the legislature which contemplates a general election this year. The governor will take no action forbidding the election, nor will he issue the usual writ providing for it.

The Boston *Advertiser's* Washington correspondent telegraphs that the local examinations provided for by civil service rules have been ordered at the east to begin about the first of October. The first district embraces the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut and New York, and the examinations therein will be held alternately at New York and Boston, but first at New York. Full instructions will be printed today.

The Republican party in Massachusetts is described by the New York *Post* as "a collection of men with incongruous ideas, held together by the fear of greater evils than the present political leaders are supposed to be capable of committing." This is true in a limited degree. It is attributable partly to the propensity of the New England mind to run after theoretic and organic changes that go by the name of "progress" or reform, but it is much more owing to the incessant agitation and activity of the small circle of educated and able persons who are engaged in the business of agitation, for it has become more a business than anything else. The two years of contest in which Butler has been the central figure have done much to bring order out of chaos in Massachusetts politics; but there seems to be a vast amount of work yet to be done.—[*Philadelphia North American*.

Periodicals.

It is announced in the ILLUSTRATED CHRISTIAN *Weekly*, that on the receipt of $2 the paper will be sent to any new subscriber from October 1st to the close of 1874. This would give the subscriber over 800 pages of first-class reading with 450 engravings from designs by the best native and foreign artists. All can be obtained for the small sum of $2, which should be sent to the American Tract Society, New York.

WOOD'S HOUSEHOLD MAGAZINE, for October, has thrust its cheery little self into our presence. It brings to us the treasures it has been gathering the past month. And all are deserving of notice. Each has its own peculiar value, and "Maggie" holds up this that and the other literary gem and archly seems to say "What do you think of this? and "Isn't this nice?" and "Look at that! And we glance at them all and say, "Yes! All are good!" There is also a pretty engraving of the chromo Yosemite, which the publisher is offering as a premium which it would be well for all our readers to examine, as it gives a very accurate idea save in size and coloring, of what the chromo Yosemite is.

Price of the Magazine. One Dollar a year, with chromo, One Dollar and a half. Address WOOD'S HOUSEHOLD MAGAZINE, Newburgh, N.Y.

AN INTERESTING NUPTIAL CEREMONY.—This morning an interesting and beautiful ceremony, performed according to the ritual of the Catholic church, was celebrated at St. Mary's. The event was the marriage of Miss Mary Grace of Utica, sister to the pastor of St. Mary's church, to our esteemed and respected young townsman George Jerome Denniston. At 8 A. M. the nuptial mass was celebrated by the respected and beloved Bishop of the Diocese, Rt. Rev. Thomas F. Hendricken, D. D. assisted by Rev. P. G. Delany of Pawtucket, and Rev. James Lenigan of Providence. The marriage ceremony was performed by the bride's brother, the blessing and charge to the young couple was delivered by the Rt. Rev. Bishop and was both beautiful and impressive. The Rev. P. Grace Delany laid his consecrated hands over his friends and blessed their union. The church was densely filled by friends of the party. The ladies who waited on the bride, were Miss Julia Denniston, sister of the groom, and Miss Maggie Waters, while George himself retained Richard Grace as his counsel, and Professor S. McLaughlin of Boston College. The ceremony over, the nuptial party and invited guests adjourned to the pastor's residence. Among the latter we noticed Revs. Clinton, Couch, Cooney and others. The father and mother of the groom, Charles Donahue and lady of Woonsocket, Cuddy and lady of Cambridge, Miss Annie Grace Delany of Pawtucket, Mrs. Palmer of Providence. Amidst the happy congratulations showered on the young and lovely couple, our reporter tendered his, and parted from as genial and graceful a bridal party as Newport, famed as it is, has seen for some time.

TEMPERANCE ANNIVERSARY.—The twenty-second anniversary of Atlantic Division No. 6, Sons of Temperance, was held at the Hall last evening. A large number was in attendance and the speaking and singing by members of the order was very spirited. Refreshments were served during the evening and the occasion was one to be remembered with pleasure. The affairs of the Division are represented as in a flourishing condition with a good and increasing membership. We understand that it is proposed to inaugurate a series of public meetings to be held weekly, which will be open to all, whether members of the order or not, to take part in the exercises. This plan has been adopted in other cities and has been productive of much good to the order and to the cause of temperance.

THE REGATTA.—The long talked of boat race occurred yesterday, although the day was not considered very favorable. In addition to the fog, there was a heavy breeze blowing which seemed to put an end to the expected amusement. But at the appointed time, they got underweigh and the following were the entries:—

First Class.

BOAT.	OWNER.
E O Matthews,	Wm Slavin.
A R Case,	"
Zippo,	"

Second Class.

George and Anna,	Albro.
Tidal Wave,	Crowell.
Maria.	Conley.

Third Class.

Dauntless,	Slavin.
Dolly,	Rathbourne.
Lily,	Alger.

The course was from Fort Walcott to and around the lightship at Hog Island and return. The start was watched by a large number of spectators and much interest was manifested in the result. The Dauntless, in addition to parting her main-sheet, was obliged to stop and reef, the wind blowing so heavily. The Lilly also was obliged to reef and the Maria turned back soon afterwards. The following will show the official time of each boat which was furnished us by the judge, Mr. William Barker:—

First Class.

Names,	Start, H M S	Time of Return, H M S	Race. H M S
E. O. Matthews	12-13-30	3-25-15	3-14-45
A. R. Case	12-14-0	3-29-30	3-15-30
Zippo	12-14-45	3-29-15	3-25-0

Second Class.

George and Anna	12-16-45	3-33-15	3-17-0
Tidal Wave	12-15-15	3-42-45	3-27-0
Maria	12-17-0	not taken.	

Third Class.

Dauntless	12-23-0	4-25-15	4-2-15
Dolly	12-17-30	4-16-15	3-53-45
Lilly	12-19-30	4-18-30	3-59-0

After the race the owners of the boats and their invited guests partook of a bountiful collation at Carl Hertgen's and all seemed perfectly satisfied with the awarding of the prizes, which is as follows:

First Class.

NAME.	PRIZE.
E. O. Matthews,	$33.00.
A. R. Case,	28.00.

Second Class.

George & Anna.	$23.00.
Tidal Wave,	23.00.

Third Class.

Dolly,	$22.00.
Lilly,	18.00.

It is reported that after the introduction of the duplex ticket system on the Rensselaer and Saratoga railroad one of the conductors was detected swindling the company, even with the duplex. For instance, says the Troy *Times*, a passenger going from Albany to Cohoes would pay his fare and the conductor would punch the duplex, but instead of punching it for a trip to Cohoes punched it to Menand's and pocketed the balance. The way the conductor was detected was as follows: "Spotters" were put on his train, and a tally of each man that got out at Menand's and each one that went to Cohoes was kept. Comparing this with his receipts the fraud was detected.

The Resumption of Business.

Saturday was by far the most hopeful day New York has seen since the failure of Jay Cooke and Company. The partial resumption of some of the suspended banking houses, the greater ease in the working of the business of the banks, the renewed activity in mercantile circles, and the large foreign exports in spite of previous rumors to the contrary, show not only that the end of the present troubles is approaching, but that there is a better and more confident feeling in New York.

When the last vestige of distrust has vanished, there must be come very serious discussion of certain points that have been raised by the origin and the progress of the panic. One of the most important of these points relates to the reserve clause of the bank act. Strange to say, opinion is rather more divided now than it was before the difficulty began. The practice of the Bank of England has always been to discount freely during a panic,—even more freely that at other times. In the Overend troubles the bank took every note that was offered on approved security. It took the most vigorous possible measures to increase its reserve, but it lent freely from its funds.

The case of our banks is different. They have not the same power to call in money by raising the rate of interest. The average rate in the provinces and on the continent is not so greatly above that in London that a rise of one or two per cent. will not make it worth while to despatch money to Lombard street. But in the money centres of the United States the rate of interest is very far below that of the interior. Money is worth more at the present time for moving the crops than any merchant of New York or Boston can afford to pay, and renders a rise in the rate entirely ineffectual either to draw in money or to stop the outflow. It is this more than anything else that complicates this question and makes the example of the Bank of England useless for our guidance. The reserve must be kept for the protection of depositors.—[*Boston Advertiser*.

The Banks.

The Boston banks on Saturday determined with perfect unanimity to certify all large checks instead of paying the notes for them, and to continue supplying the latter in small sums only. This is a wise and timely resolution, and will protect our moneyed institutions, on which the business community relies, against any foreign raids which might have been concerted against them. The fact that there was not a single dissenting voice in regard to this action greatly encourages public confidence in the prudent and conservative management of the banks, concerning which there has been at no moment the slightest shadow of doubt or suspicion.

What they have just done, after the storm had raged for ten days, the banks of the leading cities of the country had done before them. It is far from being a confession of weakness, but is intended rather to increase the general confidence by strengthening themselves at a time when neglect might be fatal. It is to be here as in New York and the other large cities; currency is to be paid out for all ordinary purposes in connection with bank management and machinery, but for all other obligations settlements are to be effected with certified checks. These are not, of course, the legal tender prescribed by law, but so long as it is known that there is a secure reserve of legal tender underneath, the feeling will be one of all the greater security.—[*Boston Post*.

Fine Perfume is one of the necessities of every day life, and the variety of preparations that are constantly before the public in no wise lessen the demand. These, however, prepared by the well known firm of Colgate & Co., seemed destined to carry the palm, having reached a degree of perfection heretofore unknown to both the trade and the public.

The sweat and tug of life, especially the sweat, is relieved by Williams' Extract Jamaica Ginger.

LABOR-SAVING MACHINES.—Of the many household labor-saving machines offered from time to time, none are more deserving of public attention and earnest consideration, or that promises such sure and lasting relief to the hard worked washer woman, than the "Ferguson Washer." Simple in construction, easy of management, devoid of machinery, it will not injure a single thread of any fabric, and can be worked by any child twelve years old; will do in a thorough manner, any ordinary family washing in two hours. Possessing these undisputed qualities, the Company in order to prove their integrity in the matter, guarantee entire satisfaction or a return of the purchase money to the buyer.

BLANKETS.—Messrs. Palmer, Jacobs & Co., 143 Tremont street, Boston, whose operations in Housekeeping Dry Goods are recognized throughout New England, are offering Blankets of every description at remarkably low prices. See advertisement.

PIMPLES AND HUMORS ON THE FACE.—In this condition of the skin, the VEGETINE is the great remedy, as it acts directly upon the cause, and changes and purifies the blood, thereby causing humors of all kinds to disappear.

CORNS.—Rooted in five minutes. DR. CRISPIN 179 Broad Street, Providence, R. I.

Half Alive.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain, but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs toning and strengthening; not merely for an hour or two, to sink afterwards into a more pitiable condition than ever, as it assuredly would do if an ordinary alcoholic stimulant were resorted to, but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unerring experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by the use of Hostetter's Stomach Bitters. Do not waste time in administering temporary remedies, but make the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame or the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain, flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

For Loss of Appetite, Dyspepsia, Indigestion, Depression of Spirits and General Debility, in their various forms, FERRO-PHOSPHORATED ELIXIR OF CALISAYA made by CASWELL, HAZARD & CO., New York, and sold by all druggists, is the best tonic. As a stimulant tonic for patients recovering from fevers or other sickness it has no equal. If taken during the season it prevents fever and ague and other intermittent fevers. ag-4w

Newport Daily News,

TUESDAY, SEPTEMBER 30, 1873.

GENERAL NEWS.

New York.

NEW YORK, Sept. 29.—The disturbed state of the money market has made it necessary for some large firms in this city to discharge many of their hands and to give others only three or four days' work a week, and one large manufacturing firm has closed up altogether.

AT TRENTON.

There was considerable excitement among the working people, at Trenton, Saturday, by reason of the failure of the manufacturing establishments to pay of employes in full. All the banks in Trenton are sound, none having less surplus than $100,000, but the supply of currency could not be procured in New York. The currency on hand was divided as equally as possible. Among the manufactruies failing to obtain currency were the American Saw Company, New Jersey Steel and Iron Company, Fisherman and Son, Samuel K. Wilson, and most of the brick yards and potteries. The workmen seem to understand the situation, and no trouble is apprehended.

CURRENCY AND STOCKS.

The amount of currency paid out at the sub Treasury, for bonds purchased, last week, was $12,963,682,02; coin paid for interest on the same, $200,922,21; interest on November coupon bonds, payment to commence today, $10,177,935; interest of registered bonds, $2,925,993; total $13,103,929. affairs are becoming more settled. Street quotations are: Union Pacific 19@21; Central 89@90; Pacific Mail 31@32; Lake Shore 72@74; Rock Island 88½ bid; North Western 41 bid; Ohio and Mississippi 28½@30; Western Union 63 asked; Harlem 66 bid.

THE STOCK EXCHANGE.

The governing committee of the Stock Exchange held another meeting this morning, to make arrangements for the opening of the board tomorrow. The governing committee adjourned till 1:30 p. m., and referred the regulations respecting the business tomorrow to the Bayliss committee, with instructions to report this afternoon.

BANK OFFICERS.

A meeting of bank officers was held this morning at the Merchants Bank, at which a proposition was matured for presentation to the bank conference at its next session, looking towards the purchase of an exchange to facilitate the moving of crops, etc. The Executive Committee of the Gold Exchange met at noon today and resolved to close the Exchange hereafter at 3 o'clock P. M.

SUMMARY OF BUSINESS.

Money could be obtained this afternoon on stocks at seven per cent. per annum. The highest rate was ¼ per cent. a day. The premium on legal tenders over certified checks declined from 5 per cent. to 2¾. A few transactions in discounts at 15@20 per cent. Gold has been active and fluctuating all day, opening at 113¼, declining to 111⅞, advancing to 112⅞, and closing at 112⅞. borrowing rates have been flat to 1-32, 1-16, 7 and ⅛ and closed flat.

Operations at the Gold Exchange Bank today were: Gold balances, $994,105; currency balances, $1,201,991; gross clearances, $33,842,000. Clearing House Statement—Currency exchanges (including $11,000,000 last Saturday); gold exchanges, $1,682,065; gold balances $531,569. There were no sales of governments today. Sterling Exchange opened quiet at 105½ for prime bankers bills on 60 days, and 106½ for short sight. Some sales were as low as 101⅞@105. Commercial bills 103 and some lower. Cable transfers 107@107½.

Washington

WASHINGTON, Sept. 29.—Col. Cox, pension agent for the District of Columbia, has recently paid four hundred pensions to American citizens residing in England, Ireland Scotland, Wales, and in many instances to pensioners residing on the islands of the Pacific and Atlantic oceans, not belonging to the United States. All these are paid by bills of exchange. The United States is the only government that pays pensions to citizens who have taken up their abodes in other countries.

THE BANKS.

The Farmers' and Mechanics' National Bank, of Georgetown, the National of the Republic, the Bank of Washington, and the banking houses of Riggs & Co., Middleton & Co., are all paying the demands upon them as usual. Other banks and banking houses in the combination formed last night to certify checks instead of paying currency will not pay even the smallest check. This had the effect of creating much dissatisfaction among depositors and retarding business transactions generally. The paying institutions however afford to the community the relief which is sensibly felt and appreciated.

Since the commencement of the panic, four institutions have entirely closed their doors, namely, the First National Bank, and the Washington City Savings Bank, now in liquidation, and the banking houses of Jay Cooke & Co., and Fant, Washington & Co.

Miscellaneous.

SHREVEPORT, La., Sept. 29.—Within the last four days several of the most prominent and useful citizens of Shreveport have fallen victims to the epidemic. The population is fearfully thinned out by sickness and death. We no longer have funerals. Hearses followed by one or two carriages dash through the streets like a section of artillery in battle seeking a position; then a few more hearses are drummed up, coffins shoved into the hearse and driven rapidly to the cemetery.

This is the case even with the most prominent citizens. The Howards have opened an orphan asylum and are feeding about two-thirds of the resident population. There are fewer deaths and less cases, because there are fewer people. The physicians appointed a committee, last week, to investigate the origin of the epidemic, and evidence has already been collected showing beyond question that the fever was imported here from Cuba. Doctors Chapin, Burns and Davidson, who are here from New Orleans, are fully satisfied on this point.

BOSTON, Sept. 29.—At a meeting of officers of the savings banks of Boston and Charlestown, held to-day, the following resolution was passed:

Resolved, That in the judgement of the meeting it is expedient and advisable that the savings banks of Boston and vicinity, enforce the by-laws of their several institutions, relating to the with-drawal of deposits, and until otherwise advised, that the savings banks at their discretion pay drafts for small amounts only.

LONDON, Sept 29. The election for Lord Mayor of London took place to-day, and resulted in the choice of Mr. Andrew Lusk, at present an alderman, and also member of Parliament.

ST. PAUL, Minn., Sept. 29.—All the St. Paul banks respond to all demands upon them in currency and have done so all the time with no thought of doing otherwise. There is no excitement or alarm here, and aside from the stoppage of wheat purchases, business goes on as usual.

MADRID, Sept. 29. The insurgent frigates Numancia and Mendez have left Alicantes for Carthagena. The commander of the Numancia admits there was serious loss of life on his vessel during the bombardment of Alicante last Saturday. It is generally believed that the failure of the insurgents will cause the immediate surrender of Carthagena, thus ending the intransigente insurrection.

CHICAGO, Sept. 28. The state central committee, of Illinois, stated that the Farmers' Association have issued a call to the farmers' clubs, grangers, farmers' associations, agricultural societies, board of agriculture and other organizations of the industrial classes of the United States, requesting them to send from their own numbers, identified with their interests, one delegate from each organization, to meet in Chicago, Oct. 22, for the purpose of discussing the prevailing overcharges in transportation, to insure a perfect organization of the agricultural and other industrial classes who chiefly suffer from these overcharges in every state, territory and province in the country, with the view of throwing a combined and overwhelming influence against future exactions, and to take such measures as shall secure prompt and efficient legislation that shall end in the complete extinction of all railroad or other monopolies now preying on the productive interests of America.

LOUISVILLE, Ky., Sept. 29. A majority of the banks formed a Clearing House Association yesterday, and resolved to suspend paying currency in large amounts. The banks that suspended Saturday are making arrangements to enter the Clearing House Association. The Bank of Kentucky declines to go into the Association, and continues to meet demands made upon it. There is no run upon it. There is no excitement in financial circles, and the action of the Clearing House Association was approved by the Board of Trade today.

HANOVER, Sept. 29.—The funeral of Dr. Dixi Crosby took place today. The large church was crowded. Places of business in town were closed and affairs suspended. The entire medical school, the Dartmouth students and the students of the various departments were all present. Numbers came from adjoining towns. President Asa D. Smith, of Dartmouth College, and Rev. Dr. Leeds pronounced proper eulogies on the life, character and virtues of the deceased. Dr. Crosby was 73 years of age.

HALIFAX, Sept. 27. Schooner Leader sailed from Liverpool, Saturday, previous to the gale of August 29th for Sydney, and was last seen off Sambro on the fatal Sunday. The crew consisted of four persons. Isaac Smith, the master, who left a wife and one child, Wm. Stewart, Smith Stewart, and Joseph Wallace, all young men, unmarried. Fears are also entertained for the safety of Capt. McLeon of Ship Yard Point, who left Cold Bay bound for St. John, N. F., the day before the gale. A son of Geo. Wright, of Liverpool, Mr. Stewart Allen and Frank McLeod, son of the Captain, were also in the vessel. Capt. McLeod and Stewart Allen leave wives and families.

Five vessels stranded in Sydney harbor during the gale of the 24th ultimo, have been successfully launched.

ASIATIC COLERA IN CHINA.

ALMOST EVERY CASE CURED WITH

PAIN-KILLER!

DEAR SIRS,—During a residence of some ten years in Siam and China, as a missionary, I found your Vegetable Pain-Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine, I found it most effectual to give a teaspoonful of Pain-Killer in a gill of hot water, sweetened with sugar; then, after about fifteen minutes, begin to give about a tablespoonful of the same mixture every minute until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain-Killer, clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.

Rev. R. TELFORD, Missionary in China.

DEAR SIRS,—During a long residence in China, I have used your valuable Pain-Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of 1862 and 1863, while residing in Shanghai, I found it an almost certain cure for cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged to fall often upon my own resources in cases of sickness. The Chinese come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even of their physicians that we have almost daily applications. We allow them to come, because it brings us in contact with them and opens a door of usefulness. In diarrhœa, colic, vomiting, cholera, coughs, etc., your Pain-Killer has been my chief medicine. Yours, very truly,

Rev. T. P. CRAWFORD, Tungchow, China.

Those using Pain-Killer should strictly observe the following directions: At the commencement of the disease take a teaspoonful of Pain-Killer in sugar and water, and then bathe freely across the stomach and bowels with the Pain-Killer, clear. Should the diarrhœa and cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked, and the patient relieved in the course of a few hours.

N. B.—Be sure and get the genuine article; and it is recommended by those who have used the Pain-Killer for the cholera, that in extreme cases the patient take two (or more) teaspoonfuls instead of one.

We invite the attention of the public to this well-tested and unrivalled family medicine.

The PAIN-KILLER is sold by all the Druggists and Dealers in Family Medicines.

The Rival Cooking Stove.

For Wood or Coal.

The Rival is a medium sized open front Cooking Stove.

The patterns of this Stove are fitted with great care and we take pleasure in presenting it for inspection and trial, and invite special attention to the following points:—

1st. The Patent Double Top, having a circulation of air between the plates, effectually prevents the cracking and warping of the top, the constant source of trouble with single top stoves, alike to the dealer and purchaser. The Double Top is also a powerful radiator of heat, securing great economy in the operation of the Stove.

2d. The Grate shakes and dumps, the ashes falling into a spacious ash pan while the stove is shut, the doors being so nicely fitted that no dust escapes during the process.

3d. The Oven is large and commodious and has a Patent Ventilator, by which the steam and gases arising in cooking may escape.

4th. The castings are smooth and heavy, made from a careful selection of Iron and mounted in the best manner by master workmen.

5th. The Stove works and bakes quickly and evenly, and is warranted to be well made in every particular.

City of Rochester 7 Per Cent. Bonds,

ISSUED FOR CONSTRUCTION OF WATER-WORKS UNDER ACT OF LEGISLATURE,

PASSED APRIL 27, 1872.

Rochester possesses the elements of a prosperity unexcelled, if equalled, by any other city in this State. It is the centre of trade to a surrounding population of about 500,000, to whom the means of transportation are furnished by Railroads radiating from the city in eleven different directions.

Its indebtedness, excluding this Loan, is less than $1,850,000, while it has Public Property amounting to about $2,350,000, and Private Real Estate valued at $70,000,000.

The bonds are issued in either Coupon or Registered form, the Registered being transferable at the office of the Union Trust Company of New York, where both principal and interest is payable.

The expenditure of moneys derived from their sale is directed by the Mayor of the city and the Board of Commissioners.

THAMES STREET.

JAMES H. CLARKE, Nos. 3 and 4 Cottrell Block,

HAS for Sale the NEW PROGRESS COOKING STOVE, notwithstanding the assertion of unprincipled parties to the contrary.

It has several important improvements over the old Stove.

MAGEE'S NEW

STANDARD PLATE IRON FURNACE.

One feature of interest in this furnace is that the FIRE POT is enclosed in a STEAM BOILER BODY, having no joints to admit of the escape of gas or dust, [think of that, you, whose lives are in jeopardy from gassy furnaces,] and being made of heavy wrought iron, is impervious to carbonic acid. This renders the air heated by it entirely free from all injurious properties.

I confidently offer it, therefore, as the

BEST IN THE MARKET,

and as rumor that others are of the same opinion, I notice an advertisement claiming for a furnace in which there happen to be a few thin sheet iron pipes, "The first wrought or plate iron furnace ever made." Verily, there has certainly been great improvements in furnaces since that day. We are selling a large number of the Standard Furnace, and feel confident that they will become the most popular furnace of the age. We do not propose to keep the public posted as to how many we buy or how many we sell as we don't believe they care but we do promise to inform them when we have to take one back for any fault of the furnace.

CALL AND EXAMINE THE

"MAGEE" Standard Plate Iron Furnace,

ALL YOU WHO ARE IN WANT OF A

CHEAP, DURABLE, SAFE HEALTHY and ECONOMICAL

Hot Air Furnace,

Entirely free from the objections so common to the Furnaces which have been previously sold in this market—namely, GAS.

TUESDAY, SEPTEMBER 30, 1873.

Vindication of Mr. Sheppard Homans from the charges made by the Mutual Life Insurance Company of New York.

The undersigned, at the joint request of Messrs Frederick S. Winston and Sheppard Homans, have, as arbitrators, considered the questions referred to them raised by the letter, dated August 21st, 1873, from the Mutual Life Insurance Company of New York, in regard to the relations of Mr. Homans with that company while he was its actuary, and they do find and determine as follows:

First. That the audit by Mr. Homans of the accounts of the company subsequent to the quarterly account ending November 1st, 1869, being the five subsequent audits referred to in said letter, were so made after the change of policy by the executive officers in regard to the non-payment of post-mortem dividends.

Second. That the letter written by Mr. Homans in regard to the St. Louis Mutual Life Insurance company was an act of courtesy in reply to a request for information, and that said letter was private and confidential.

Third. That the "similar letter" referred to, written by Mr. Homans to Hon. William Barnes, was not directed to the case of any named life company, but was simply an opinion on an actuarial question.

Fourth. We ascribe no blame to Mr. Homans in the matter of performing services to other companies.

The foregoing cover the charges in the letter of Mr. Stuart, and are found by us as above.

E. H. OWEN,
WM. A. SEAVER.

NEW YORK, Sept. 24, 1873.

FACTORY BUTTER IN CANADA.—Factory butter is in far better demand and at better prices than that made by farmers. Why? Because in butter factories, skilled labor is employed to direct or control the manufacture. The milk from the cows of the farmer whose wife knows nothing about butter making, is as valuable as that from the cows of the farmer whose wife understands it perfectly. Once at the factory, it enables the one to get as large a price for the product of his cows as the other. Thus the system of co-operation is gradually yet surely winning its way. It will not be long before other products will be cared for in a similar manner. The necessities of civilization, the difficulty of obtaining skilled labor and the necessity of paying good prices for that which is available, will force co-operation among farmers, which will result in cheaper and better products and greater profits to the producer.

Miscellaneous.

NOTICE.

A prominent New York physician lately complained to DUNDAS DICK & CO., about their Sandalwood Oil Capsules, stating that sometimes they cured miraculously, but that a patient of his had taken them without effect. On being informed that several imitations were sold, he inquired and found his patient had not been taking DUNDAS DICK & CO.'S.

What happened to this physician, may have happened to others, and DUNDAS DICK & CO. take this method of protecting physicians, druggists and themselves, and preventing Oil of Sandalwood from coming into disrepute.

PHYSICIANS who once prescribe the Capsules will continue to do so, for they contain the **pure Oil in the best and cheapest form.**

DUNDAS DICK & CO. use more Oil of Sandalwood than all the Wholesale and retail Druggists and Perfumers in the U. S. combined, and this is the sole reason why the pure oil is sold cheaper in their Capsules than in any other form.

OIL OF SANDALWOOD is fast superseding every other remedy, sixty Capsules only being required to insure a safe and certain cure in six or eight days. From no other medicine can this result be had.

DICK'S SOFT CAPSULES solve the problem long considered by eminent physicians, of how to avoid the nausea and disgust experienced in swallowing, which are well known to detract from, if not destroy, the good effects of many valuable remedies.

Soft Capsules are put up in tin-foil and neat boxes, thirty in each, and are the only Capsules prescribed by Physicians.

TASTELESS Medicines. Castor Oil and many other nauseous medicines can be taken easily and safely in DUNDAS DICK & CO.'S SOFT CAPSULES. **No Taste. No Smell.**

These were the only Capsules admitted to the last Paris Exposition.

Iron in the Blood

PERUVIAN SYRUP. AN IRON TONIC.

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*
